

---

Do imported audio files appear in the Layers tab?

No. Audio files appear in the Audio and Media tabs.

---

Which pan value will pan a sound to full right channel: +100, 000, or -100?

A pan value of +100 is full right pan.

---

In the Audio Editor, what keyboard shortcut adds a project marker?

Shift-M adds a project marker.

---

The Audio parameters behavior can respond to which 2 kinds of changes in an audio file?

Amplitude and transient frequency changes

---

Can an animation curve created by the Audio parameter behavior be edited in the Keyframe Editor?

No.

Do changes made to the Master audio track affect audio files that are imported after those changes were made?

Yes. Changes to the Master audio track affect all clips, no matter when they are added to the project.
